

Client

Europe based Precision Engineering company

Client Requirement

To manage date from meetings in a web application for anytime, anywhere monitoring and tracking of Actions and Decisions

IDS Solution

- ▶ IDS developed an application to manage/track the meetings within an organization and outside of it
- ▶ Application has the capability to **map multiple decisions** against every individual action
- ▶ It has the feature to convert meeting actions to outlook tasks
- ▶ Archives all the meetings, actions and decisions logs
- ▶ Application allows connectivity between multiple A&D logs, User Management, Active Logs, Active Directory, Attached Documents with Meetings and Tasks/Decisions, Archived Actions and Decisions

Challenges

- ▶ All the minutes of meetings were manually recorded and maintained in excel files
- ▶ It was very cumbersome to manage and keep track of all the meetings' data
- ▶ Bulk tasks were manually assigned through emails
- ▶ Syncing between the web app and MS outlook

Nr.	Business Aspects	Subject	Action	Date In	Owner	Days Left	Date Ready	Ready state	Convert (Decision)
21	Quality	qryerty subject	qryerty	21/06/2016	Test5	Date Exceed	6/21/2016	Completed	In Progress
22	Quality	qweqweqwe 6666444	eafdfwerfewn 123444	21/06/2016	Test2	Date Exceed	6/21/2016	Completed	In Progress
24	Quality	S1	A1_update	21/06/2016	test3	Date Exceed	6/21/2016	Waiting on	In Progress

Technology: MS SharePoint 2010, SharePoint 2010 Designer, MS Visual Studio 3.5/4.0/4.5 and MSSQL Server 2008 with Management Studio

Salient Features of the Application

- ✓ Integration with MS Outlook
- ✓ Attractive dashboard for all the Meetings, Actions and Decisions
- ✓ Alert Notifications

- ✓ Product Do Check Action based Attractive Charts
- ✓ Checks for accepted attendees to ensure their attendance before the start of a meeting

Business Results

- ▶ One stop application to manage and track all the meetings, actions and decisions
- ▶ Client no longer needs to send extra meeting or decision related emails to the participants, which saves time and effort

Client Feedback

“ I also take the opportunity to thank IDS and colleagues for all the help and support in launching the application – we appreciate all the hard work and the way in which IDS have responded to any blips that have arisen.

-Project Manager Jr
